3. There are mounds of earth along the southeastern edge of the Sinuiju airfield. It is possible that they are entrances to underground hangars.

Source for paras. 4-5: [REDACTED] 25X1X6

4. Construction of a tunnel has begun connecting the Peace Preservation Corps Officers School in South Sinuiju with the Sinuiju airfield. The tunnel, as yet uncompleted, is about 15 meters wide and three meters high.

5. Soviet officers are giving flight instruction to a small number of Korean students at the Peace Preservation Corps Officers School in Sinuiju. Instruction is received at night and in the early morning.
